

As we enjoy all of this wonderful sunshine, I imagine that many of you are also hoping for rain to arrive and provide some relief to communities affected by wildfires. At the Foundation, we feel grateful to see care and compassion within our community on a daily basis. I hope you will enjoy reading about a recent Code Orange training exercise at the hospital which provided our healthcare teams with an incredible learning opportunity, preparing them to respond effectively and in coordination with other local agencies in the event of a major disaster or incident.

This month there are a number of fun ways to be involved in supporting healthcare. I appreciate being able to share them with you and the opportunity to highlight the many people, businesses and organizations who give their time, talent and funds to support care in our community. Thank you to each of you for all that you do.

Sincerely,

Jess

COORDINATED EMERGENCY PLANNING FOR OUR COMMUNITY

The Comox Valley Emergency Program and 19 Wing Comox co-designed and co-conducted a large-scale multi-agency emergency training exercise on May 17, 2023, known within Island Health as a Code Orange Mass Casualty Exercise. The exercise took place in and between several locations, including Air Force Beach, 19 Wing Comox, 19 Wing Fitness Centre, and the Comox Valley Hospital. Over twenty different agencies were involved.

Multi-agency training such as this ensures interoperability among the various agencies, clearer understanding of the different roles and procedures used by others, as well as a chance to learn from each other. All training scenarios were carefully prepared to maintain realism and the continued operations of all agencies to handle real emergencies.

Our gratitude to everyone involved in this critical day of training to ensure our community is prepared in the event of a major disaster or incident.
